as practical, at a minimum, kick and snare.

We are, to an extent, able to modify our stage set up to suit individual venues needs. Thank you for your time.

**MIX NOTES:**

We are a pop band so we prefer to have vocals up front. We would prefer if there were no obtrusive delays on the vocals and instead just a vocal plate reverb. We like our drum pad to be as loud as our drum kit and our keyboards to be of equivalent volume or just below our guitars. Thank you!
