**BLIGH** are a Gold Coast based Alternative band with big ambitions and even bigger choruses. The youthful 5-piece formed in 2016, shaking the coastal music scene with their unique alternative sound and pop hooks.

**BLIGH** tackles the seismic task of reinventing the relevant yet exultant sounds of new wave synthpop, reminiscent of The Wombats, The 1975, Troye Sivan, and The Killers. Their energetic live shows led to their victory at the Green Room Battle of The Bands 2017. The group have recently recorded their debut single at The Plutonium studios in Brisbane, and have already finalised a second single for later release.
